Employer: New Brunswick Soil & Crop Improvement Association Inc
Industry Sector: Agriculture
Type of Business: Support Activities for Agriculture
Position Available: Agro- Environmental Agrologist
Location: Fredericton, New Brunswick
Pay Range: Commensurate with experience and qualifications.

Job Description

The New Brunswick Soil & Crop Improvement Association is seeking an outgoing, self-motivated individual to serve as the NBSCIA Agrologist/Coordinator for the Central Region. (<https://www.nbscia.ca/locals/>)

This individual will be well organized, have excellent communication skills and able to work independently within a flexible schedule as well as within a team environment. This individual will work with producers and the Local Soil and Crop Association to promote and implement agronomy services in the region.

This will involve working one-on-one with producers to develop plans and find environmentally based solutions for each farm. It will also require the individual to source and distribute information, identify appropriate resource speakers and work with other like-minded community groups. The successful candidate will also participate in adaptive research projects and undertake other duties that may be assigned.

The successful candidate will work out of their home and the NBSCIA Office located at 150 Woodside Lane, Fredericton NB and be prepared to travel as required (mileage provided). Providing on-farm service is a significant requirement of this position.

Qualifications Required

The successful candidate will have excellent people skills, knowledge of soil and crop science, manure management and various other beneficial management practices. Training in developing nutrient management plans will be considered an asset. The candidate must have a good working knowledge of computers and have a valid driver's license and the use of a vehicle. Being bilingual is an asset.

Preferred candidates will have a B.Sc. in Agriculture and a commitment to pursue the professional designation of P.Ag (Professional Agrologist).
